

Table of contents

1. Introduction	7
1.1. Learning environment setup	8
1.2. Legal notice	9
2. Terminology	10
2.1. What is Notes/Domino?	11
2.2. Domino Domain vs. Domino Organization	13
2.2.1. Domain	13
2.2.2. Organization	14
2.2.2.1. Security	14
2.2.2.2. Notes names	14
2.2.2.3. Components of the Notes names	15
2.2.3. Domain and organization with the same name?	15
3. First Domino Server	16
3.1. Planned Domino Environment	17
3.2. Installation of the 1st Domino Server	18
3.3. Optional: Language Pack	25
3.4. Optional: Installation Fixpack	33
3.5. Configuration of the 1st Domino server	37
3.5.1. Why are there 2 icons on the desktop for the server?	37
3.5.2. Executing the configuration	37
3.6. Startup of the 1st Domino Server	50
3.6.1. Resolving the names in the network	50
3.6.1.1. Using DNS	50
3.6.1.2. Using the hosts file	50
3.6.2. Configure Windows Firewall	51
3.6.3. Starting the Domino server as an application	55
3.6.4. Starting the Domino server as a Windows service	57
3.6.5. The Domino Console	58
4. Domino Administrator Client	60
4.1. Why are there 3 Notes clients?	62
4.1.1. Basic Notes Client	62
4.1.2. Standard Notes Client	62
4.1.3. Notes Client with Domino Administrator and Designer	62
4.2. Installation of the Domino Administrator Clients	63
4.3. Optional: Installation Client Fixpack	69
4.4. Startup of the Domino Administrator Client	73
4.5. Overview Domino Administrator Client	76
4.5.1. Basic settings of the Notes client	76
4.5.1.1. Activate Workspace	77
4.5.1.2. Show file name in application icons	78
4.5.2. Starting the Domino Administrator Client	79
4.5.3. Bookmark bar	79

4.5.4. Tab: People & Groups	81
4.5.5. Tab: Files	82
4.5.6. Tab: Server	83
4.5.7. Tab: Messaging	84
4.5.8. Tab: Replication	85
4.5.9. Tab: Configuration	86
4.6. Help for self-help	87
5. Additional Domino Servers	89
5.1. Reasonable defaults in the Domino Administrator Client	90
5.2. Registration of additional Domino servers	93
5.3. Startup of additional Domino servers	98
5.4. Replication topologies	109
5.4.1. Hub and Spoke	109
5.4.2. Ring	110
5.5. Set up scheduled replication	112
5.6. Final settings for trouble-free administration	118
5.6.1. No sufficient access to system applications	118
5.6.2. Server document settings	119
6. Access Control Lists (ACLs)	122
6.1. Basics	123
6.2. Full Access Administration	124
6.3. Tab: Basics	126
6.3.1. ACL entries	126
6.3.2. -Default- and Anonymous	127
6.3.3. Wildcard entries	128
6.3.4. ACL levels	129
6.3.5. ACL attributes	130
6.3.6. User type	131
6.3.7. Roles	132
6.3.8. Effective rights for multiple entries	132
6.3.9. Recommendation for secure ACLs	134
6.4. Tab: Roles	135
6.5. Tab: Log	136
6.6. Tab: Advanced	137
7. Replication	139
7.1. Application copies vs. Application replicas	140
7.2. Connection documents	142
7.2.1. Tab: Replication/Routing	142
7.2.2. Tab: Comments	145
7.2.3. Tab: Administration	145
7.3. Creation and distribution of the test application	146
7.4. Minimum required ACL rights for replication	149
7.5. Replication History	151
7.6. Replication Options	152
7.7. Replication and Save Conflicts	154
7.8. Troubleshooting problems	155

8. Notes Mail Routing (NRPC)	156
8.1. How does Notes Mail Routing (NRPC) work?	157
8.1.1. Activities of the Notes Client	157
8.1.2. Activities of Domino Servers	158
8.2. Named Networks (DNN)	159
8.3. Mail routing in multiple Named Networks	160
8.3.1. Assigning a Domino Server to a DNN	161
8.3.2. Connection documents for mail routing	162
9. Domino Security	165
9.1. Domino Security model	166
9.2. User login to the Notes Client	167
9.3. Authentication by using Certificates	168
9.4. Access Control Lists	170
9.5. Access control within an Application	171
10. People and Group management	172
10.1. Organization (O) and Organizational Units (OUs)	173
10.2. The Administration Process	178
10.3. Groups	180
10.3.1. Create Groups	181
10.3.2. Resolving nested groups	184
10.4. Defaults in the Domino Administrator Client	186
10.5. Register new users	188
10.5.1. Tab: Basics	189
10.5.2. Tab: Mail	190
10.5.3. Tab: Address	192
10.5.4. Tab: ID Info	193
10.5.5. Tab: Groups	195
10.5.6. Tab: Roaming	196
10.5.7. Tab: Other	197
10.5.8. Additional buttons	198
10.5.9. Carrying out the registration	200
10.6. Moving a user to another Domino Server	202
10.7. Renew a user ID	207
10.8. Change first and last name (CN - Common Name)	211
10.9. Change of Organizational Unit (OU)	216
10.10. Delete Users	222
10.10.1. Deny Access Groups	222
10.10.2. Carrying out the deletion	223
10.11. Policies	226
10.11.1. Settings documents	227
10.11.2. Policy documents	230
10.11.2.1. Organizational Policies	230
10.11.2.2. Explicit policies	233
10.11.2.3. The Notes client and effective Policies	235

11. Extras	237
11.1. Activate Server services	238
11.1.1. notes.ini	238
11.1.1.1. Modification via editor	239
11.1.1.2. Modification by console commands	239
11.1.2. Programs	240
11.2. Configuration Documents (multiple Mailboxes)	243
11.3. Time settings for the administration process	245
12. Good to know	246
12.1. Abbreviation of commands at the Domino Console	247
12.2. Use of tools vs. actions	247
12.3. Help for individual fields	250
12.4. Does it matter on which server I administrate?	251
12.5. Why are documents missing in Domino Administrator?	252
12.6. Why are configuration changes not applied immediately?	253
12.7. Official HCL product documentation	255
